

You are apparently planning on expanding the LPFM service in a way that will allow them to take priority over current FM translator service, which would force some of our jFM stations out. We only listen to one station K-LOVE and it is on FM, so we wish for you to rethink your actions. There are many including soldiers over fighting for freedom that will lose the ability to be encouraged by K-LOVE. K-LOVE is of enormous value to many people and we wish to not lose our radio station!!! Thank you for your time & consideration in preserving our FM station.
